RE: Source Material License
Application, Docket No.
40-8745

SUBJECT: Geophysical Logs

Dear Ms. VanDell:

Enclosed please find the following geophysical logs that you requested during our meeting in Washington on August 7, 1980:

- | | |
|-------|---------|
| OP-83 | OP-89 |
| OP-86 | BBX-146 |
| OP-87 | BBX-187 |
| OP-88 | CBX-149 |

Hole no. CBX-149 is the nearest available geophysical log to the Union Carbide water well. This hole is located approximately 1/4 mile west of the water well.

Also enclosed is a publication entitled "An Introduction to Well Log Analysis" published by Welex that may be of assistance to you in interpreting the geophysical logs. I would like to have the publication returned to me when you have finished with it.

Sincerely,

OGLE PETROLEUM INC.
