Docket No. 40-1341

Dear Mr. Scarano:

As requested by Gene Trager of your staff on August 28, 1980, enclosed is a copy of the procedures for in-site permeability packer testing performed during the geotechnical study of the proposed Edgemont uranium mill decommissioning disposal site. It is our understanding that you require this information for your review of the preliminary geotechnical study report of the disposal site.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
