NUCLEAR REGULATORY COMMISSION

WASHINGTON DC

WE BELIEVE THERE IS A CLEAR AND PRESENT DANGER TO PUBLIC WELFARE
GENERATED BY THE AGAIN UNPREDICTED EXPLOSION OF MT ST HELENS AND ITS
PROXIMITY TO THE TROJAN NUCLEAR POWER PLANT THE HEALTH HAZARDS POSED
BY RADIATION FROM A MELT DOWN ARE OF SUCH MAGNITUDE THAT ANY RISK OF
SUCH A CATASTROPHE MUST BE AVOIDED THE LACK OF A COHERENT EVACUATION
PLAN WOULD INSURE IRRADIATION OF THE ENTIRE SURROUNDING POPULATION
SHOULD A MELT DOWN BE CAUSED BY ERUPTION RELATED EVENTS CATASTROPHES
ASSOCIATED WITH A VOLCANIC DISASTER MAY MAKE EVACUATION OF THE AREA
IMPOSSIBLE SHOULD THERE BE A NUCLEAR INCIDENT THEREFORE WE URGE YOU
TO ORDER IMMEDIATE SHUT DOWN OF THE TROJAN NUCLEAR FACILITY
