Mr. Charles MacDonald, Chief
Transportation Branch
Division of Fuel Cycle and Material Safety
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Subject: Docket 71-6346; Application for Renewal. (7 copies).

Dear Mr. MacDonald:

General Atomic Company herewith makes application for renewal of the Certificate of Compliance No. 6346 issued for the FSV-1 fuel shipping package. Pursuant to your 10/18/79 request, we are supplying two revised documents (Enclosures 1 and 2) which consolidate relevant information from all previous submissions. We suggest that these documents be used in superseding all previous submissions. Also attached is a \$150 check to cover the prescribed fees for this package's certificate renewal.

We believe the renewed certificate of compliance should be substantially the same wording except for the deletion of (1) three drawing references from Section 5(a)(3) and (2) inappropriate references now superseded by this consolidated submittal. The deleted drawings are 40155D, Rev. 1; 70105F, Rev. 5; and 70104F, Rev. 5.

We look forward to your issuance of the renewal of Certificate of Compliance showing the Public Service Company of Colorado as a registered user of the package.

Very truly yours,

William R. Mowry
Licensing Administrator
Nuclear Materials Control Division
