Attn: Mr. John T. Collins, Deputy Director  
U. S. Nuclear Regulatory Commission  
c/o Three Mile Island Nuclear Station  
Middletown, Pennsylvania 17057

Dear Sir:

Three Mile Island Nuclear Station, Unit 2 (TMI-2)  
Operating License No. DPR-73  
Docket No. 50-320  
EPICOR I

This letter is our response to your letter NRC/TMI-80-132, dated September 15, 1980, concerning operation of EPICOR I. As you know, EPICOR I is being utilized for the processing of liquid radioactive waste that is generated in Unit 1 and Unit 2 (non-accident water).

Specifically, with regard to the processing of Unit 2 non-accident water, we have identified in our previous letter, TLL 390, dated August 26, 1980, that we will affect transfer of the wastewater under administrative control of Procedure No. 3104-4.7. EPICOR I operations will be performed under the administrative control of Station Procedure No. 3104-4.3.

It is anticipated that this response adequately addresses your concerns.

Sincerely,

/s/ G. K. Hovey

G. K. Hovey  
Director, TMI-2
