Dear Norm:

I wish to thank you and B&W for making your simulator and instructors available to us the first week of January. As you know, the examiners who attended spent the next two weeks conducting the cold examinations at Davis-Besse. The training they received at your facility was a major segment of their preparation for those examinations.

Our thanks, also, to Bill Street for organizing and coordinating the week's activities and to Walt Perks, Joe Klimek and Brian Delano whose lectures and simulator instruction were excellent. You have good reason to be proud of your training staff.

It is a continuing objective of our examiners to stay knowledgeable in reactor operations. Your assistance to them is greatly appreciated.

Sincerely,

ORIGINAL SIGNED BY
