Benjamin E. Tenzer
Vice President
Materials Engineering and
Quality Assurance

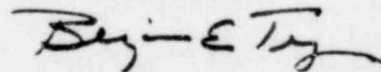

August 8, 1980

Mr Walter P Haass, Chief
Quality Assurance Branch
Division of Project Management
Nuclear Regulatory Commission
Washington, D C 20555

Dear Mr Haass:

Transmitted herewith are fifty-five (55) unnumbered copies of Updating Status Memorandum No 12 applicable to the Ebasco Quality Assurance Program Manual (ETR-1001). These are for distribution to holders of the manuals assigned to you to summarize any changes made to the manual, as provided for in Section QA-II-2 of the Manual.

Very truly yours,

BET/slh

TO: Assignee of
Ebasco Nuclear Quality Assurance Program Manual No. _____

FROM: F F Ford, Quality Program Coordinator *FF Ford*

SUBJECT: EBASCO NUCLEAR QUALITY ASSURANCE PROGRAM MANUAL (ETR-1001)
UPDATING STATUS MEMORANDUM NO. 12

1. No revisions to the Ebasco Nuclear Quality Assurance Program Manual (ETR-1001) have been made since publication of Updating Status Memorandum No. 11, dated March 18, 1980.
2. A list has been compiled and is being maintained by the Quality Program Coordinator of each individual page in the Ebasco Nuclear Quality Assurance Program Manual which indicates the current issue or revision date of each page. Information from this list may be obtained from F F Ford, Quality Program Coordinator, 88th Floor Two World Trade Center, Ebasco New York Office.
3. It is recommended this current updating Status Memorandum be inserted behind the appropriate tabbed divider sheet at the end of the manual and the prior memo(s) removed for discarding or filing.
