Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
United States Nuclear Regulatory Commission  
Washington, DC 20555

Dear Mr. Denton:

Please send to us a copy each of the current utility and state government emergency evacuation plans for the Davis-Besse Nuclear Power Station, Unit I (Docket No. 50-346). It is our understanding that the utility site plan has received NRC approval. We would appreciate also a copy of any order by the NRC pertaining to this approval.

Sincerely,

W. Matthew Perrenod  
Associate Director
