Re: SA/ECA

Mr. J. Leonard Ledbetter, Director  
Environmental Protection Division  
Georgia Department of Natural Resources  
270 Washington Street, S.W.  
Atlanta, Georgia 30334

Dear Mr. Ledbetter:

This is to confirm the discussion Mr. Ashley held with Messrs. James Setser and William Cline following our review of the Division's radiation control program conducted on May 28 and 29, 1980. The review covered the principal administrative and technical aspects of the program. This included an examination of the program's organization, administration and laboratory capabilities; environmental, radioactive waste and emergency response activities; and the status of the Division's radioactive waste disposal regulations.

We have no comments at this time regarding those areas which were examined.

I appreciate the cooperation and courtesies extended by Messrs. Setser and Cline to Mr. Ashley during his visit.

In accordance with our standard procedures, I am enclosing an extra copy of this letter which is provided for placement in your State Public Document Files or to otherwise be made available for public review.

Sincerely,

G. Wayne Kerr, Acting Director  
Office of State Programs
