

DOCKET NUMBER  
PROPOSED RULE RM 50-5

Rt. 4 Box 86  
Rolla, MO 65401

September 15, 1980

Secretary U.S.N.R.C.  
Washington D.C. 20555

Subject: Resumption of GESMO

In accordance with the original decision of the Carter administration to halt GESMO until INFCE is completed, I would like to urge the Commission to resume and complete GESMO.

The INFCE exercise showed - and the rest of the industrialized world agrees that reprocessing and recycle of LWR fuel should be seriously considered. The United States will have nothing to gain and, probably, a lot to lose if she is left behind and, essentially out, of the reprocessing market.

Sincerely,

*Nicholas Tsoulfanidis*
