ZELL DRAZ
VICE PRESIDENT

August 14, 1979

Dear Mr. Gilinsky,

I simply cannot believe the announcement today that TMI is thinking of venting radioactive gases out into the atmosphere over a thirty day period. That plus the fact that the public is being reassured that ofcourse the doses will be "safe." Your own commission is on record stating that there is no safe dose. Please, for our children's sake not to mention our own, stop this nonsense now.

Sincerely,

Zell Draz
(Mrs.) Zell Draz
