VIRGINIA ELECTRIC AND POWER COMPANY
RICHMOND, VIRGINIA 23261

September 18, 1980

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
Attn: Mr. Robert A. Clark, Chief
Operating Reactors Branch No. 3
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Serial No. 681
NO/FHT:ms
Docket No. 50-338
License No. NPF-4

Dear Mr. Denton:

BYPASS AND RESET OF ENGINEERED SAFETY FEATURE (ESF) ACTUATION SIGNALS
NORTH ANNA POWER STATION - UNIT 1

We have received Mr. Robert A. Clark's letter of July 10, 1980, and Mr. Thomas Novak's letter of July 25, 1980, both concerning the above subject. Our initial review indicated that responses to these requests for additional information could be prepared consistent with your requested completion dates of August 15, 1980, and August 31, 1980, respectively, for the two letters. However, delays were encountered by our A-E in the preparation of the responses. We have received preliminary responses and are reviewing them at this time. We expect to be able to transmit final responses to you in early October, 1980. We regret any inconvenience this delay may have caused in your continuing review of this subject.

Very truly yours,

B. R. Sylvia
Manager - Nuclear
Operations and Maintenance

cc: Mr. James P. O'Reilly
