1990 N. CALIFORNIA BOULEVARD
SUITE 202, WALNUT CREEK PLAZA
WALNUT CREEK, CALIFORNIA 94596

JUL 1 1 1980

Docket No. 50-147

Energy Systems Group Rockwell International Corporation 8900 De Soto Avenue Canoga Park, California 91304

Attention: Dr. M. E. Remley, Director

Health, Safety and Radiation Services

Gentlemen:

Subject: NRC Inspection of Rockwell International's FCEL Facility

This refers to the closeout inspection conducted by Mr. J. R. Curtis of this office on June 3-4, 1980 of the condition of the FCEL Facility and to the discussion of our findings held by Mr. Curtis with you and other members of the staff at the conclusion of the inspection.

The inspection was conducted to observe the condition of the facility and verify that the licensee conducted surveys and documented results as they were described in the Report of Radiation Surveys of the FCEL Reactor Facility submitted to DOR, USNRC, Attn: Wm. Gammell, (Itr M. E. Remley to Wm. Gammell, April 30, 1980; reference #80 ESG-3900). The inspection consisted of examination of records, interviews with personnel, observations by the inspector and the performance of direct radiation and contamination measurements by the inspector.

Based on the findings of this inspection including results of surveys performed on June 4, 1980, the inspector confirmed that the facility has been decontaminated and the condition is as described in the report of radiation surveys cited above. Region V is forwarding the report of this inspection to the NRC Office of Nuclear Reactor Regulation (NRR) for their consideration in termination of the license.

In accordance with section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inpsection report will be placed in the NRC's Public Document Room. If this report contains any information that you believe to be proprietary, it is necessary that you submit a written application

to this office, within 20 days of the date of this letter, requesting that such information be withheld from public disclosure. The application must include a full statement of the reasons why it is claimed that the information is proprietary. The application should be prepared so that any proprietary information identified is contained in an enclosure to the application, since the application without the enclosure will also be placed in the Public Document Room. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.

Should you have any questions concerning this inspection, we will be glad to discuss them with you.

Sincerely,

H. E. Book, Chief Fuel Facility and

A. E. Book

Materials Safety Branch

Enclosure: IE Inspection Report No. 80-01
