Re: In the Matter of Houston Lighting & Power  
Company (Allens Creek Nuclear Generating  
Station, Unit 1) Docket No. 50-466

Gentlemen:

On September 19, 1980, Applicant transmitted to the Board three affidavits in support of requests for protective treatment of certain documents as required by the Board in its Order of August 21, 1980. Applicant submitted at that time a telecopy of the affidavit executed by William G. Gang on September 19, 1980, relating to the General Electric document known as the Reed Report since there was insufficient time to transmit the original affidavit from California.
