Gentlemen:

This refers to the inspection conducted by Messrs. R. C. Knop and J. L. Barker of this office on June 6-8, 15, 16, 20, 21, and 27-29, 1978, of activities at Dresden Nuclear Power Station, Units 1, 2, and 3 authorized by NRC Operating Licenses No. DPR-2, No. DPR-19, and No. DPR-25 and to the discussion of our findings with Mr. A. Roberts and others of your staff at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

During this inspection, certain of your activities appeared to be in noncompliance with NRC requirements, as described in the enclosed Appendix A. The inspection showed that action had been taken to correct the identified noncompliance and to prevent recurrence. Consequently, no reply to this noncompliance is required and we have no further questions regarding this matter at this time.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room, except as follows.
