MEMORANDUM FOR: Harris E. Coleman, Chief
Contract Policy Staff
Division of Contracts

FROM: Denwood F. Ross, Director
Division of Systems Integration, NRR

SUBJECT: REVIEW OF UNSOLICITED PROPOSAL FROM SCIENCE APPLICATIONS,
INC. ENTITLED "A PROPOSAL TO PROVIDE THE NRC WITH A REACTOR
RADIATION STREAMING ANALYSIS CAPABILITY," DOCKET NUMBER
80-559

This is in response to your memorandum of July 8, 1980, on the same subject. It is the staff position that the radiation streaming contract with Mathematical Application Group, Inc. (MAGI) Contract Number NRC-04-79-179 has been satisfactory completed. We further concur with Don Solberg's memo dated July 15, 1980, (attached) that the new SAI proposal lacks the technical merits and understanding of NRC's need to warrant funding by NRC. We recommend that this work not be funded.

Denwood F. Ross, Director
Division of Systems Integration
Office of Nuclear Reactor Regulation
