Attn: Mr. John T. Collins, Deputy Director
U. S. Nuclear Regulatory Commission
c/o Three Mile Island Nuclear Station
Middletown, Pennsylvania 17057

Dear Sir:

Three Mile Island Nuclear Station, Unit 2 (TMI-2)
Operating License No. DPR-73
Docket No. 50-320
Containment Building Entry

This letter is to advise you of our current plans for the next Containment Building entry.

We are tentatively scheduling the next Containment Building entry for Thursday, October 16, 1980.

Activities planned during this entry will include, at a minimum, the following:

1. Make the No. 1 personnel airlock operable--Reset inner door solenoid, open inner door, reset outer door solenoid, clean seals on inner door, close inner door.
2. Remove the spare source range monitor preamplifier and jumper the two spare source range detectors to permit ex-containment trouble shooting.
3. Radiation surveys in the area of the Core Flood tanks.
4. Radiation surveys in the area of the Containment Building air cooler.
5. Selected photographs incident to these activities.

Additional activities may be scheduled. We will keep you and your staff advised of our plans as they evolve and will review our final plans prior to the entry as we have with previous entries.

Sincerely,

G. K. Hovey
Vice-President and
Director, TMI-2
