Gentlemen:

Thank you for your letter of February 15, 1973, dealing with your program to assure that valves important to nuclear safety installed at the Dresden and Quad-Cities Stations meet design wall thickness requirements.

In your February 15 letter, you state that you will submit a formalized valve wall thickness verification program to us by the end of March 1973. This delay is agreeable to us, and we will complete our evaluation of your program at that time.

Sincerely yours,

Boyce H. Grier  
Regional Director
