FUEL DENSIFICATION AND FABRICATION QUESTIONS FOR REVIEW OF YANKEE
ROWE AND DRESDEN 1, SUPPLEMENT NO. 1

Subsequent to my note to you on this subject on April 10, 1973, I received a full copy of GUNFC's report on "Evaluation of Densification in Dresden 1 Fuel," CU-5293, dated February 23, 1973. The attached questions developed from my reading of this report and are intended as a supplement to my original memo.
