September 5, 1980

Mr. Robert F. Burnett
Director, Division of Safeguards
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Burnett:

This letter is written to inform you that General Atomic Company has now received official notice from the Public Service Company of Colorado to proceed with the manufacture of reload segment 10. Based on this information, we will continue to develop our plans to implement the Security Upgrade Rule currently imposed upon the licensees by the NRC, and for the same reason, we will discontinue work on plans for decommissioning the facility.

Very truly yours,

H. N. Wellhouser, Director
Nuclear Materials Control Division
