General Manager, Operations
1 North Broadway
White Plains, New York

Gentlemen:

This is in response to your request of August 20, 1980 for a change to the route approved by our letters of July 5, 1979 and March 12, 1980.

The route (enclosure #1) previously approved remains in effect contingent upon meeting the requirements of 10 CFR Part 73.37 relative to heavily populated areas. The alternate change you proposed is approved as modified (enclosure #2). Please insert enclosure #2 between pages 3 and 4 of enclosure #1.

Please note that assuring highway safety is the responsibility of the licensee and carrier and our approval is not intended to provide relief in this regard. Furthermore, the approval does not guarantee that there will be no local or state legislation applicable to the route that restricts or prohibits the movement of radioactive material.

Sincerely,

Original Signed by G. W. McCorkle
