U.S. Nuclear Regulatory Commission

Gentlemen:

## REVISION OF REACTOR SITING CRITERIA

We are preparing comments on the "Modification of the Policy and Regulatory Practice Governing the Siting of Nuclear Power Reactors," 10CFR Parts 50, 51, and 100, contained in the "Advance Notice of Rulemaking: Revision of Reactor Siting Criteria." Due to the number and complexity of issues raised by these regulations, it is necessary to request an extension of the time within which our comments may be submitted.

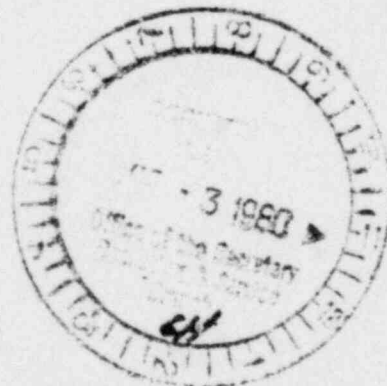

We intend to make our submittal on or before October 20, 1980, approximately three weeks beyond the present September 29, 1980 deadline.

Thank you for your cooperation.

Very truly yours,

*S. B. Jacobs*
