Meeting Summary:

Management Meeting, August 21, 1980 (Inspection Report No. 70-1100/80-08)
Enforcement conference held at Combustion Engineering, Windsor, Connecticut between representatives of the licensee, Region I staff and a representative of the Office of Nuclear Material Safety and Safeguards to discuss corrective actions relative to imbalances between book records and physical inventory records of items within Item Control Areas. Nine hours of Region I staff time were expended at this meeting.

Other matters discussed by the Region I staff during this meeting are discussed in Inspection Report No. 70-1100/80-06.
