Gentlemen:

We have received your response of June 21, 1974, to our letter of June 17, 1974, regarding the acceptability of the Physical Security Plan for the Yankee Nuclear Power Station.

In our letter we asked that you reply within seven days stating your intention to comply with certain interim measures considered necessary to provide adequate protection at your facility. This was and is considered to be a reasonable period of time for you to develop a statement of intention in this important matter. It is not clear to us how the present refueling outage at the plant has an effect on your ability to make a commitment to the specified interim measures.

We suggest that you reconsider your position with a view to furnishing a positive response as soon as practicable.

Sincerely,

Original Signed by  
 Karl Goller
