Dear Mr. Denton:

Attached is Amendment No. 50 to the LaSalle County Station Units 1 and 2 Final Safety Analysis Report. This amendment transmits revised responses to Reactor Systems Branch questions reviewed as a part of the BWR Licensing Review Group effort; as well as one new response to a second-round question, and a complete update to the drawing package contained in Section 1.7 of the FSAR. Also included in this transmittal is a new Appendix N that addresses the plan for isolation/separation of Unit 1 from Unit 2 during the time that Unit 1 is in operation and Unit 2 is in the final construction stage.

Three (3) signed originals and fifty-seven (57) copies of this amendment are submitted for your review and approval.

Very truly yours,
