Locations of revisions are indicated by "R" symbols in the right hand margins. We consider the revisions are not of a substantive nature with respect to NRC's concerns; that conformance with the basic intent of Ebasco Quality Program and policy is in no way violated.

Upon receipt of your word that NRC accepts Ebasco Topical Report ETR-1001 with section revisions as indicated by Table of Contents Proposed Revision 9, we will affix our approval signatures and date and transmit to you your requested quantity of the revised sections and Table of Contents for insertion in the copies of the report assigned to you. This will be considered as Change No. 9 to the report.

I will be pleased to answer any questions you may have in regard to the above.

Very truly yours,
