Attn: Mr. Hal Bernard
Standardization & Special Projects Branch

Ref: Docket 50-54, Renewal, Operating License R-81.

Gentlemen:

Several typographical errors have been identified in the proposed Technical Specifications supplied as part of the subject renewal application.

Attached are corrected pages. The only substantive change is that shown on Page 35 where subparagraph (3) was incorrectly typed as a duplicate of (2). This change restores (3) to the same wording as in our currently-approved Specifications.

In addition, the changes in paragraph numbering restore this to the same as in the current Specifications.

In view of the minor nature of these changes, only a duplicate set is enclosed with this letter.

Very truly yours,

Kenneth D. George
Senior Development Scientist
