

Portland General Electric Company

Bart D. Withers - Vice President

October 23, 1980

Director of Nuclear Reactor Regulation
Attn: Walter P. Haass
Chief of Quality Assurance Branch
Division of Project Management
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Gentlemen:

Ref: Letter, C. J. Heltemes, Jr. to J. L. Williams, October 27, 1977,
Subject: NRC Acceptance of Portland General Electric Company's
Topical Report on Quality Assurance (PGE-8003, Revision 2)

The above-referenced letter advised Portland General Electric Company that organizational changes which do not affect the Nuclear Projects Quality Assurance Program for Design, Construction, and Preoperational Testing are to be submitted to the U. S. Nuclear Regulatory Commission no later than 30 days after announcement.

This will advise you of several Portland General Electric Company organizational changes which are described in the attached PGE information releases. These changes have no significant impact on the above-referenced Topical Quality Assurance Program. The applicable changes will be incorporated into the PGE organizational structure description in Section 1.0, Organization, of PGE-8003 with the next technical revision.

Should you have any questions regarding this organizational change, please contact me.

Sincerely,

Bart D. Withers
Vice President
Nuclear

INSTANT INFORMATION

INSTANT INFO #22
SEPTEMBER 10, 1980
4:15 P.M.

Election of several new corporate officers and reorganization of some areas of the Company, effective Oct. 1, have been announced by Robert H. Short, who becomes Chairman of the Board and Chief Executive Officer at that time.

Short succeeds Frank M. Warren who retires Oct. 1, after 43-years with the Company. Warren will continue to serve on PGE's Board of Directors.

The intent to elect Short to his new position and William J. Lindblad as President and Joseph L. Williams as Vice Chairman of the Board was announced at PGE's annual stockholders meeting in May. Williams has also been elected to PGE's Board of Directors.

Short announced today that James W. Durham, Ken L. Harrison and Charles L. Heinrich, all presently Vice Presidents, become Senior Vice Presidents.

Durham has responsibility for PGE's legal, public affairs and public relations activities. Financial, budget and administrative service functions report to Harrison while rates-revenue requirements, data services and human resource areas report to Heinrich.

Newly named as Vice Presidents are Charles Goodwin, Jr., Leslie E. Hodel, Donald R. Miller, E. Kay Stepp and Bart D. Withers.

Withers has responsibility for operation and engineering activities specifically related to PGE's nuclear projects. Goodwin is responsible for operation and maintenance of other thermal power plants. Hodel is responsible for engineering and construction activities of all other PGE projects.

Withers, Goodwin and Hodel report to Lindblad along with the corporate planning, thermal operations and internal audit areas.

In her new assignment, Stepp is responsible for human resources encompassing all of the manpower planning and development, labor relations, compensation and employment functions. She reports to Heinrich.

Miller has responsibility for corporate services including land, fleet management, purchasing and stores. He reports to Williams. The utility's division operations, power operations and security department will also report to Williams.

In addition, Peggy Y. Cree has been named General Manager for Environmental Services. She reports to Williams.
