IN RESPONSE REFER
TO FOIA-80-509

Dear Mr. Fidell:

This is in reply to your letter dated October 8, 1980, in which you requested, pursuant to the Freedom of Information Act, copies of all documents which constitute, reference, discuss, evaluate or in any way relate to the evaluation or adequacy of Exxon's Critical Heat Flux Correlation data submitted to the NRC with respect to the Oyster Creek Nuclear Power Station, Unit No. 1, of Jersey Central Power & Light Company in Docket No. 50-219, for the time period 1973 to 1976 inclusive.

In response to your request, the documents listed in Appendix A are enclosed.

In our search for documents subject to your request, we determined that the NRC individual who performed the technical review of the MCPR thermal limit criteria, as reflected in Section 4.0 of the Safety Evaluation data May 24, 1975 (See - Appendix A document 1), no longer has in his possession any documents pertinent to the staff's review of this matter.

This completes action on your request.

Sincerely,

J. M. Felton, Director
Division of Rules and Records
Office of Administration

Enclosures: As stated

8010280 723

APPENDIX A

1. May 24, 1975 - Safety Evaluation by the Office of Nuclear Reactor Regulation (13 pages).
2. April 2, 1975 - Letter from G. Lear to I. Finfrock of Jersey Central Power & Light Co. (JCP&LCo) enclosing a request for additional information pertaining to Cycle 5 reload (10 pages).
3. April 21, 1975 - Memorandum from V. Stello to K. Goller proposing questions on the 8 X 8 reload (1 page).
4. April 21, 1975 - Memorandum from V. Stello to K. Goller pertaining to information required for review of transient analysis for Cycle 5 reload (3 pages).
5. April 21, 1975 - NRC letter from G. Lear to I. Finfrock, JCP&LCo, transmitting request for additional information needed for Cycle 5 reload (8 pages).
6. June 3, 1975 - Note to files from W. Paulson relating to Exxon critical heat flux correlation (XN-1) (2 pages).
7. June 3, 1975 - Summary of meeting prepared by W. Paulson, NRC for meeting held on May 5, 1975 to discuss the Exxon critical heat flux correlation (3 pages).
8. June 3, 1975 - Summary of meeting held on May 8, 1975, prepared by W. Paulson, regarding the Exxon critical heat flux correlation (3 pages).
9. June 3, 1975 - Summary of meeting held on May 15, 1975, by W. Paulson regarding the MCPR Criteria for Cycle 5 (3 pages).
10. June 5, 1975 - Summary of meeting held on May 20, 1975, prepared by W. Paulson, relating to JCP&L Co's critical power correlation (2 pages).
