Mr. Charles MacDonald, Chief
Transportation Branch
Division of Fuel Cycle and Material Safety
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Subject: Certificate of Compliance #9057; Renewal Request.

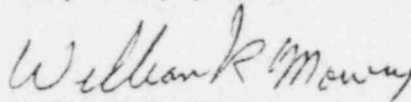

Dear Mr. MacDonald:

General Atomic Co. (GAC) requests the renewal of the subject Certificate of Compliance for a period of five (5) years. We also request the renewal without submission of a consolidated safety analysis. Attached is a check for \$150 covering the prescribed 10 CFR 170.31 fees.

Renewal of the subject Certificate of Compliance without a consolidated safety analysis is justified because the package is not used under the 10 CFR 71.12 general license provisions and the package is used only by GAC for material transported by our vehicles between our two contiguous sites.

We look forward to your renewal of the subject Certificate of Compliance. Should you have questions in the matter, please direct them to the undersigned, 714-455-2823.

Very truly yours,

William R. Mowry
Licensing Administrator
Nuclear Materials Control Division
