MEMORANDUM FOR: Chase R. Stephens, Chief, Docketing and Service Branch,
Office of the Secretary of the Commission

FROM: Walter P. Haass, Chief, Quality Assurance Branch,
Division of Engineering

SUBJECT: COMMENT ON PROPOSED REVISION 1 TO REGULATORY GUIDE 1.23

We have reviewed the proposed Revision 1 to Regulatory Guide 1.23, "Meteorological Programs in Support of Nuclear Power Plants," September 1980 (Division 1, Task SS 926-9). We have one comment regarding Section 7 of the Regulatory Guide which is headed "Quality Assurance." Since Section 7 makes reference to Regulatory Guide 1.33 regarding quality assurance for operation, we believe reference should also be made to Regulatory Guide 1.28 regarding quality assurance for design and construction since meteorological data are required long before plant operation.
