

THE CINCINNATI GAS & ELECTRIC COMPANY

September 10, 1980

E. A. BORGMANN
SENIOR VICE PRESIDENT

U.S. Nuclear Regulatory Commission
Region III
799 Roosevelt Road
Glen Ellyn, Illinois 60137

Attention: Mr. James G. Keppler
Director

RE: WM. H. ZIMMER NUCLEAR POWER STATION -
UNIT 1 - NRC TLD LOCATIONS

Gentlemen:

This letter is with regard to the preoperational environmental protection inspection conducted August 6-8, 1980 at Zimmer Station by NRC Region III personnel. During this inspection, NRC placed thirty-seven (37) thermal luminescent dosimeters (TLD's) on utility poles within a five (5) mile radius of Zimmer Station. Utility pole identification numbers were provided to CG&E by the NRC inspectors after the TLD's had been installed.

Based on the pole numbers provided, CG&E has compiled the attached list of pole locations, indicating ownership and whether the poles are used jointly by both telephone and electric lines. CG&E can only provide authorization for installation of the TLD packets on those poles owned and used exclusively by CG&E.

You should also be aware that these TLD packets may need to be removed during maintenance or repair operations, at which time they will be returned by mail. In addition, CG&E will not be responsible for damage to the TLD's or be liable for any personal injury which is a result of the TLD locations.

In summary, we would appreciate that, in the future, advance notice be provided when utility poles are to be used for the location of monitoring devices or similar equipment.

Very truly yours,

THE CINCINNATI GAS & ELECTRIC COMPANY
