Mr. Ross Scarano
Chief, Uranium Recovery Licensing Branch
Division of Waste Management
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Scarano:

Attached please find the original application for source material license (Form NRC-2) submitted for the commercial scale in situ uranium solution extraction operation on the Leuenberger Ranch property, Converse County, Wyoming. The initial fifteen copies of this application are being delivered in person to the Commission Office at 7915 Eastern Avenue, Silver Springs, Maryland. Also enclosed is our draft, number 0305, in the amount of \$7,000 for the initial filing fee.

The permit application consists of a single document organized according to the U.S. Nuclear Regulatory Commission Office of Standards Development, Draft Regulatory Guide entitled "Standard Format and Content of License Applications including the Environmental Reports, for In Situ Uranium Solution Extraction" dated July, 1980.

We look forward to a cooperative working relationship with the NRC staff during the review of this application and will make every effort to simplify and expedite your processing. Please feel free to contact me at any time I may be of assistance or service.

Sincerely yours,

UNC TETON EXPLORATION DRILLING, INC.
