January 3, 1974

United States Atomic Energy Commission
Washington, D. C. 20545

Attention: Directorate of Licensing

Reference: License No. DPR-3 (Docket No. 50-29)

Dear Sir:

Pursuant to Section 50.59 of the Commission's Regulation, Yankee Atomic Electric Company hereby requests authorization to make the following change:

PROPOSED CHANGE: Reference is made to Appendix A "Technical Specification of License No. DPR-3." Enclosed find the Technical Specifications, Section 16, rewritten to the format outlined in a guide entitled "Standard Format and Content of Safety Analyses Reports for Nuclear Power Plants" dated February, 1972. To aid in your review and approval of this Proposed Change, Yankee Atomic Electric Company has also included the "Hazards Summary Report" rewritten into Final Safety Analyses Report (FSAR) format.

REASON FOR CHANGE: This Proposed Change is responsive to the Atomic Energy Commission's (Licensing and Regulatory) comments relative to the format and status of the Technical Specifications for the Rowe plant and provides Yankee Atomic Electric Company with Technical Specifications and an FSAR in an AEC accepted format consistent with other operating Pressurized Water Reactors.

SAFETY CONSIDERATIONS: This change is safety related and has been reviewed and approved by the Plant Operations Review Committee and is currently being reviewed by the Nuclear Safety Audit and Review Committee.

SCHEDULE OF CHANGE: This Proposed Change will be implemented upon receipt of approval from the Commission.
