Dear Sir:

Attached are three replacement pages to be inserted into our proposed License Change Application 65 (Revision 5 of the Trojan Nuclear Plant Security Plan, PGE-1417) previously forwarded to you on September 30, 1980. The corresponding pages in our submittal should be removed and destroyed.

These three pages are changed due to recent organizational changes that have occurred and due to discovery of typographical and editorial errors. There is no change in the policy statement other than the signature and title for approval on the bottom. The change in Table 1-3 involves the inclusion of "X's" on the line designated "Background Check", the "X's" had been inadvertently omitted in our previous submittal. The change on Page 1-2 reflects the change in the title of the individual to whom the Plant General Manager reports. These changes are of an editorial nature and should be considered with the entire review of the proposed Revision 5. Please withhold these pages from public disclosure in accordance with 10 CFR 2.790.

Sincerely,

Bart D. Withers
Vice President
