U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Sir:

Three Mile Island Nuclear Station, Unit 2 (TMI-2)
Operating License No. DPR-73
Docket No. 50-320
Recovery Quality Assurance Plan

Enclosed for your review and approval are three (3) copies of the TMI-2 Recovery Quality Assurance Plan, Revision 0. The Plan embodies the same concepts described in the TMI-1 Operational Quality Assurance Plan, previously submitted to the Commission on March 28, 1980, but has been adapted to the organization and unique considerations appropriate to TMI-2.

The Plan is written using the position titles of the proposed GPU Nuclear Corporation (GPUNC). However, it accurately reflects reporting relationships and functional responsibilities in the existing GPU Nuclear Group as described in the TMI-2 Organizational Plan, dated September 15, 1980, and approved by the NRC.

We are confident that the organization and program described in the enclosed Recovery Quality Assurance Plan will enhance our efforts for the recovery of TMI-2.

Sincerely,

G. K. Hovey
Vice-President and
Director, TMI-2
