

ILLINOIS POWER COMPANY

U-0194

L-14-80(10-28)-9

500 SOUTH 27TH STREET, DECATUR, ILLINOIS 62526

October 28, 1980

Mr. James Keppler  
Director, Region III  
Office of Inspection and Enforcement  
U. S. Nuclear Regulatory Commission  
799 Roosevelt Road  
Glen Ellyn, Illinois 60137

Dear Mr. Keppler:

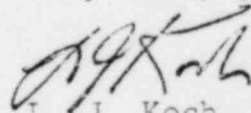

Reference: Letter L. J. Koch to James G. Keppler, dated August 19, 1980, regarding an interim report (10CFR50.55(e)) concerning a thin-walled elbow in RPV drain line; U-0170, L14-80(08-19)-9.

Clinton Power Station Unit 1  
Docket No. 50-461  
Construction Permit No. CPPR-137

The referenced letter stated that "Illinois Power Company now estimates that the final report will be filed about mid to late October, 1980". General Electric Company is experiencing a delay in a vendor reporting on the thin-walled elbow. Consequently, Illinois Power now anticipates that the final report will be filed in early December, 1980.

If you have any comments regarding this information, please notify me as appropriate.

Very truly yours,

L. J. Koch  
Vice President
