Re: 10CFR20 Proposed Rule
Fed. Reg./Vol. 45, No. 197, Wednesday, October 8, 1980

Dear Sir:

It would appear to be appropriate to include wording in the actual text of this regulation to the effect that:

"This regulation does not relieve licensees from complying with other applicable regulations of federal, state, and local agencies governing chemical and biological hazards."

At present, this wording is only in the information section describing the proposed regulation.

Thank you for the opportunity to comment.

Sincerely yours,

Lionel Lewis
Certified Health Physicist
