DOCKET NO. 50-286

Power Authority of the State of New York
ATTN: Paul J. Early, Vice President &
Assistant Chief Engineer - Projects

New York, New York 10019

Gentlemen:

We have received a copy of your application dated May 23, 1980, which was filed with the Office of Nuclear Reactor Regulation (ONRR) for review and approval. The application (IPN-80-50) relates to clarification of the term "operable" for Indian Point 3. Your request was accompanied by a Class II amendment fee of \$1,200 and was approved on September 5, 1980 by the ONRR staff and was included in Amendment 32.

Based on information provided by the ONRR staff as a result of their review of your application, it has been determined that a Class III fee of \$4,000 is applicable because a single safety issue was involved. It is requested, therefore, that your company promptly remit the additional sum of \$2,800 to this office.

Sincerely,

Original Signed by
Wm. O. Miller
