OCT 1 0 1980

Mr. Jon Huss
Powder River Basin Resource
Council
624 N. 6th Street
Douglas, Wyoming 82633

Dear Mr. Huss:

I am responding to your letter of September 26, 1980, regarding the Conoco, Inc. Sand Rock Mill Project (Docket 40-8743). In your letter you requested to be sent or referred to the agency which could send you a copy of the Conoco application document. NRC requires applicants to make copies of their environmental report available for distribution; however, the application volume is only available for review and copying at the NRC's Public Document Room (PDR), 1717 H Street, N. W., Washington, D. C. 20555. The application contains about 400 pages and the charge for the copy service is 8¢ per page. Requests for copies can be made by letter addressed to the Public Document Room and should reference the project's Docket #40-8743.

If I can be of any assistance in the future, please contact me.

Sincerely,

Kathleen J. Hamill
