and 50-301

Mr. Sol Burstein
Executive Vice President

Dear Mr. Burstein:

We have completed our review of your letter of November 13, 1979, concerning inadvertent safety injection actuations during surveillance testing at Point Beach Nuclear Plant, Units Nos. 1 and 2. We find that your response adequately addresses the concerns stated in our September 21, 1979 letter (which enclosed our June 26, 1979 letter) and, therefore, we consider this matter resolved for the Point Beach Nuclear Plant.

Sincerely,

Robert A. Clark, Chief
