Docket No. 50-29

Reference: Your letter dated April 12, 1976
In response to our letter dated March 15, 1976

Gentlemen:

Thank you for informing us of the corrective and preventive actions you documented in response to our correspondence. These actions will be examined during a subsequent inspection of your licensed program.

With respect to Item D of your letter, we understand that, based upon an April 28, 1976 telephone discussion between Mr. J. C. French of your staff and Mr. E. C. McCabe of this office, you will be placing boron and diesel fuel under the coverage of the Quality Assurance Program, and you will evaluate other materials for such coverage. If this understanding is incorrect, please notify us immediately.

The steps necessary to implement the above program will be examined during a subsequent inspection of your licensed facility.

Your cooperation with us is appreciated.

Sincerely,

A B Davis
