Gentlemen:

This refers to the inspection conducted by Mr. D. Haverkamp of this office on April 12-16, 1976 at your Yankee Nuclear Power Station, Rowe, Massachusetts, of activities authorized by NRC License No. DPR-3 and to the discussions of our findings held by Mr. Haverkamp with Mr. H. Autio and other members of your staff at the conclusion of the inspection, and to subsequent telephone discussions between Mr. Haverkamp and Mr. Ebert of your staff on April 23, 1976 and between Mr. Haverkamp and Mr. Autio on May 3, 1976.

Areas examined during this inspection are described in the Office of Inspection and Enforcement Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Our inspector also verified the steps you had taken to correct an item of noncompliance brought to your attention in a letter dated March 15, 1976. We have no further questions regarding the steps you took to correct item A of this letter. With regard to the other items of noncompliance, item B was previously satisfactorily corrected and items C and D will be reviewed during a subsequent inspection.

In addition, our inspector examined those activities conducted under your license relating to the subjects covered in your letters to this office concerning Reportable Occurrences 76-01 and 76-02. The quality assurance aspects of maintenance activities associated with these occurrences will be reviewed during a subsequent inspection.

Based on the results of this inspection, it appears that certain of your activities were not conducted in full compliance with NRC requirements as set forth in the Notice of Violation, enclosed herewith as Appendix A. These items of noncompliance have been categorized into the levels as described in our correspondence to you dated December 31, 1974. This notice is sent to you pursuant to the provisions of Section 2.201 of the NRC's "Rules of Practice", Part 2, Title 10, Code of Federal

In accordance with Section 2.790 of the NRC's "Rules of Practice", Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosures will be placed in the NRC's Public Document Room. If this report contains any information that you (or your contractor) believe to be proprietary, it is necessary that you make a written application within 20 days to this office to withhold such information from public disclosure. Any such application must be accompanied by an affidavit executed by the owner of the information, which identifies the document or part sought to be withheld, and which contains a statement of reasons which addresses with specificity the items which will be considered by the Commission as listed in subparagraph (b) (4) of Section 2.790. The information sought to be withheld shall be incorporated as far as possible into a separate part of the affidavit.
