Mr. Charles E. MacDonald, Chief
Transportation Branch
Division of Materials & Fuel Cycle Facility Licensing
United States Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. MacDonald:

Enclosed please find eight (8) copies of Revision 2 of the NuPac Model N-55 Packaging Safety Analysis Report (Certificate of Compliance No. 9070).

Enclosed is our check number 5078 for \$150.00 to cover the minor amendment fee for Category 11E Packages under 10 CFR 170.31.

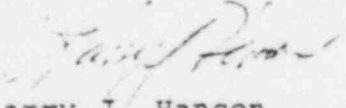

The design of the N-55 Packaging and all the information embodied in the application is the property of Nuclear Packaging, Inc. and is to be considered as Proprietary Information. Notice is hereby given to all those who seek access to this information that it is not to be used for any purpose which might be construed as detrimental to the interests of Nuclear Packaging, Inc. or its assigns.

For the reasons stated above, we have placed a Proprietary Notice on the face of this report. However, for purposes of placing this application in the Public Documents Room, you may disregard this notice. This waiver shall not prejudice our lawful property interests in the Model N-50 Packaging, but is given only to facilitate the issuance of a valid Certificate of Compliance

We are enclosing eight (8) copies of the application for your review. We would appreciate an expeditious review of this package.

Sincerely yours,

NUCLEAR PACKAGING, INC.
