Docket No.: 50-320

Mr. R. C. Arnold  
Senior Vice President  
Metropolitan Edison Company  
100 Interpace Parkway  
Parsippany, New Jersey 07054

Dear Mr. Arnold:

Subject: Disposal Of EPICOR II And Low Activity SDS Ion Exchange Media

I have reviewed the letter from G. Hovey (TLL 503) dated October 6, 1980, subject as above, and I have the following comments. At our meeting of August 20th, in which we discussed the need for the logic diagram, I requested that Met-Ed try to put dates on the major milestone for these activities. The logic diagram attached to the referenced letter contains no dates, therefore, it is not possible for us to evaluate the items noted and what time frame they should be completed. Mr. Hovey's letter indicated that because there are numerous decisions involving both GPU and governmental agencies, each area of activity will be evaluated to determine the optimum time for the performance of the activity. We request that you at least attempt to not act and provide dates for completing the logic activities.

Sincerely,

John T. Collins  
Deputy Program Director
