

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

October 27, 1980

Docket Nos. 50-295
and 50-304

Mr. J. S. Abel
Director of Nuclear Licensing
Commonwealth Edison Company
Post Office Box 767
Chicago, Illinois 60690

Dear Mr. Abel:

By our letter dated September 9, 1980, we transmitted to you Amendment Nos. 57 and 54 to Facility Operating License Nos. DPR-39 and DPR-48 for the Zion Station, Unit Nos. 1 and 2 which included Revised Technical Specifications for your facility.

Through an administrative error an incorrect copy of page 194 was issued at that time. Basically, the error occurred when Amendment Nos. 56 and 53 were issued while the subsequent amendments were nearing issuance. In essence, the last sentence on page 194 was omitted in Amendment Nos. 57 and 54. Please correct your copy of the Technical Specifications by replacing page 194 with the attached revised page.

Sincerely,

A handwritten signature in dark ink, appearing to read "Steven A. Varga".

Steven A. Varga, Chief
Operating Reactors Branch #1
Division of Licensing
