REG.
SECTION

Mr. Charles E. MacDonald, Chief
Transportation Branch
Division of Material and Fuel Cycle Licensing
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. MacDonald:

Under the conditions set forth in Certificate of Compliance No. 6568 (Revision 1), Tennessee Valley Authority (TVA) shipping cask Model No. LL-60-150 is licensed for a loaded weight of 73,000 pounds (5(a)(2)). The Safety Analysis Report states that the liner for this cask weighs 2,500 pounds and the contents of the liner may weigh up to 10,000 pounds. This, along with the weight of the cask and cask lid, constitute the 73,000 pounds. We request that paragraph 5 (a)(5)(2) be clarified to read "The package shall be limited to 12,500 pounds. . . ."

In accordance with 10 CFR 170.11(a)5 an amendment fee is not required.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
