RE: Docket No. 40-8602  
Source Material License SUA-1356  
Morton Ranch Project

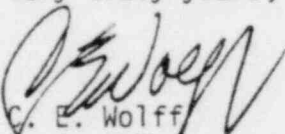

Gentlemen:

Enclosed please find ten (10) copies of the Dames and Moore "Report of Inspection and Testing of Compacted Fill, Proposed Evaporation Pond Embankment, Morton Ranch Project, Near Casper, Wyoming, For UNC Mining and Milling Services, Inc." dated September 30, 1980.

This report presents the results of inspection and testing services performed during the 1980 construction season for the proposed evaporation pond embankment at the Morton Ranch Project. The inspection and testing were performed during the period of April 14, 1980 through July 2, 1980 when construction operations were terminated for the season. At that time, approximately twenty (20) percent of the total required embankment fill had been placed.

Please advise if further information is desired.

Very truly yours,

  
C. E. Wolff  
Project Manager  
Morton Ranch
