Div. of Fuel Cycle & Material Safety  
7915 Eastern Avenue  
Silver Springs, MD 20906

Dear Sir:

In keeping with the conditions of our license, this is to inform you of our intention to add a seventh stage to our leaching circuit.

This will increase the retention time of the slurry in this circuit approximately 2 hours. This will improve the overall recovery of U<sub>3</sub>O<sub>8</sub> approximately one-half (1/2) of a percent on most ores.

Yours very truly,

*N. J. Andrus*
