U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

In the Matter of
Houston Lighting & Power Company
(Allens Creek Nuclear Generating Station, Unit 1)
Docket No. 50-466

Dear Mr. Chairman:

This is in response to the Licensing Board's Memorandum and Order dated October 3, 1980, which requested the parties' views on those unresolved matters which need to be brought to the attention of the Board prior to the prehearing conference. Based on our limited conversations with several parties who have environmental contentions scheduled for hearing, the NRC Staff believes that there are no unresolved matters that need Board attention prior to the prehearing conference except the various motions that are currently before the Board for its action.

Sincerely,

Richard L. Black
Counsel for NRC Staff
